Homelessness, Health, and Human Needs-Institute of Medicine 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern.

Part of this new recognition stems from the problem’s prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

Permanant Supportive Housing-National Academies of Sciences, Engineering, and Medicine 2018-07-11 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

The Girl’s Guide to Homelessness-Brianna Karp 2011-05-01 Brianna Karp entered the workforce at age ten, supporting her mother and sister throughout her teen years in Southern California. Although her young life was scarred by violence and abuse, Karp stayed focused on her dream of a steady job and a home of her own. By age twenty-two her dream became reality. Karp loved her job as an executive assistant and signed the lease on a tiny cottage near the beach. And then the Great Recession hit. Karp, like millions of others, lost her job. In the six months between the day she was laid off and the day she was forced out onto the street, Karp scrambled for temp work and a way back.

Address Unknown-James D. Wright 2009 Homelessness in America has grown from a minor problem in isolated areas of a few big cities into a near epidemic. Today, scarcely any American city of any appreciable size lacks homeless people. Homeless shelters and programs have become as essential and as commonplace as police protection or water and sewage treatment. What to do for, with, or about the homeless is a nagging and complex social policy issue debated at all levels of government. “Address Unknown” emphasizes the large-scale social and economic forces that have priced an increasingly large segment of the urban poor completely out of the housing market. Seen in this light, the problem of homelessness is that there are too many extremely poor people competing for too few affordable housing units. Th e nation would be facing a formidable homelessness problem even if there were no alcoholics, no drug addicts, no deinstitutionalized mentally ill people–no personal pathologies of any kind. Rather than a choice, homelessness is the result of housing markets that have very little to offer to extremely poor people. The plight of the homeless is very visible, and “Address Unknown” is one of the first major investigative studies into the nature and multiple causes of the problem. Wright considers demographic, economic, sociological, and social policy antecedents of homelessness. A hallmark is the delineation of the range of factors involved, including deinstitutionalization of the mentally ill, urban renewal, the decrease in lower-skilled jobs, changing political priorities, and bureaucratic obstacles to providing existing social services to the homeless population. “James D. Wright” is a professor in the department of sociology at the University of Central Florida. He has published seventeen books including “Armed and Considered Dangerous” and “Under the Gun” as well as many journal articles. His current research interests include urban poverty and inequality, health and the homeless population, and the “divorce reform” movement.

Troop 6000 Nikita Stewart 2021-03-02 The inspiring true story of the first Girl Scout troop founded for and by girls living in a shelter in Queens, New York, and the amazing, nationwide response that it sparked “A powerful book full of powerful women.”–Chelsea Clinton Giselle Burgess was a young mother of five trying to provide for her family. Though she had a full-time job, the demands of ever-increasing rent and mounting bills forced her to fall behind, and eviction soon followed. Giselle and her kids were thrown into New York City’s overburdened shelter system, which housed nearly 60,000 people each day. They soon found themselves living at a Sleep Inn in Queens, provided by the city as temporary shelter; for nearly a year, all six lived in a single room with two beds and one bathroom. With current funding lack of amenities, it felt more like a prison than a home, and Giselle, at the mercy of a broken system, grew fearful about her family’s future. She knew that her daughters and the other girls living at the shelter needed to be a part of something where they didn’t feel the shame or stigma of being homeless, and could develop skills and a community they could be proud of. Giselle had worked for the Girl Scouts and had the idea to establish a troop in the shelter, and with the support of a group of dedicated parents, advocates, and remarkable girls, Troop 6000 was born. New York Times journalist Nikita Stewart settled in with Troop 6000 for more than a year, at the peak of New York City’s homelessness crisis in 2017, getting to know the girls and their families and witnessing both their triumphs and challenges. In Troop 6000, readers will feel the highs and lows as some families make it out of the shelter while others fail, and girls grow up with the stress and insecurity of not knowing what each day will bring and not having a place to call home, living for the times when they can put on their Girl Scout uniforms and come together. The result is a powerful, inspiring story about overcoming the odds in the most unlikely of places. Stewart shows how shared experiences of poverty and hardship sparked the political will needed to create the troop that would expand from one shelter to fifteen in New York City, and ultimately inspired the creation of similar troops across the country. Woven throughout the book is the history of the Girl Scouts, an organization that has always adapted to fit the times, supporting girls from all walks of life. Troop 6000 is both the intimate story of one group of girls who find pride and community with one another, and the larger story of how, when we come together, we can find support and commonality and experience joy and success, no matter how challenging life may be.

This Is All I Got-Lauren Sandler 2021-05-25 A NEW YORK TIMES NOTABLE BOOK * From an award-winning journalist, a poignant and gripping immersion in the life of a young, homeless single mother amid her quest to find love, family, and a home. year in Camila's life—from the birth of her son to his first birthday—as she navigates the labyrinth of poverty and homelessness in New York City. In her attempts to secure a safe place to raise her son and find a measure of freedom in her life, Camila copes with dashed dreams, failed relationships, the desolation of abandonment, and miles of red tape with grit, humor, and uncanny resilience. Every day, more than forty-five million Americans attempt to survive below the poverty line. Every night, nearly sixty thousand people sleep in New York City-run shelters, 40 percent of them children. In This Is All I Got, Sandler brings this deeply personal issue to life, vividly depicting one woman's hope and despair and her steadfast determination to change her life despite the myriad setbacks she encounters. This Is All I Got is a rare feat of reporting and a dramatic story of survival. Sandler's candid and revealing account also exposes the murky boundaries between a journalist and her subject when it becomes impossible to remain a dispassionate observer. She has written a powerful and unforgettably indictment of a system that is often indifferent to the needs of those it serves, and that sometimes seems designed to fail.

Praise for This Is All I Got "A rich, sociologically valuable work that's more gripping, and more devastating, than fiction."—Booklist "Vivid, heartbreakingly . . . Readers will be moved by this harrowing and impassioned call for change."—Publishers Weekly "A closely observed chronicle . . . Sandler displays her journalistic talent by unerringly presenting this dire situation . . . An impressive blend of dispassionate reporting, pungent condemnation of public welfare, and gritty humanity."—Kirkus Reviews

Family Routines and Rituals—Barbara H. Fiese 2006-01-01 While family life has conspicuously changed in the past fifty years, it would be a mistake to conclude that family routines and rituals have lost their meaning. In this book Barbara H. Fiese, a clinical and developmental psychologist, examines how the practices of diverse family routines and the meanings created through rituals have evolved to meet the demands of today's busy families. She discusses and integrates various research literatures and draws on her own studies to show how family routines and rituals influence physical and mental health, translate cultural values, and may even be used therapeutically. Looking at a range of family activities from bedtime stories to special holiday meals, Fiese relates such occasions to significant issues including parenting competence, child adjustment, and relational well-being. She concludes by underscoring the importance of flexible approaches to family time to promote healthier families and communities.

Confronting Sexual Exploitation of Homeless Youth—Nancy Smith 1991

Young, Homeless and Forgotten—Barry Stillerman 2020-02-20 The current homeless crisis in the United States is a global pandemic, hitting the homeless with a vengeance. But many who are on the streets have different stories. In this vividly-written narrative, experienced journalist Richard Schweid takes us on a spirited journey through this "invisible nation," giving us front-row dispatches of suffering families on the edge. Based on in-depth reporting from five major cities, Invisible Nation looks backward at the historical context of family homelessness as well as forward at what needs to be done to alleviate this widespread, although often hidden, poverty. Invisible Nation is a riveting must-read for everyone who cares about inequality, poverty and family life."—Provided by publisher

Changing the Paradigm of Homelessness—Yvonne Vissing 2019-11-06 Changing the Paradigm of Homelessness offers a comprehensive look at family housing distress related to the homelessness epidemic in the United States. This book explores the causes and consequences of this epidemic and proposes drastic changes in America's historically ill-fated approach to family homelessness. By describing this crisis in detail, the authors enlighten readers to the scope of this issue, describe those impacted by it, and outline ways to shift public policies and public perceptions. The authors interweave scholarly concepts with insights of those who are currently or previously homeless, and, in doing so, they show the importance of academic knowledge influencing policy decisions and the ways in which these influences impact the lives of real persons. This book, then, uses pedagogy, policy, and pragmatism to critique the United States' approach to family homelessness.

Homeless Older Populations—Diane Chau 2018-03-28 Offers proven strategies for advancing the care of the homeless elderly Filled with key insights and field-tested knowledge, this is a concise, hands-on guide to how interdisciplinary team strategies can advance the care of older homeless adults. The book encompasses research evidence, education-based initiatives, and systems thinking, and describes how to implement promising health care outlooks for diverse elderly populations in a variety of localities. Chapters address the many challenges to caring for homeless individuals by integrating a team vision for adopting transformation and geriatrics health care workforce education. The book provides an overview of population demographics and trends and discusses specific medical/psychological care challenges including the spread of infectious diseases. It covers the delivery of care to homeless patients, complex ethical and legal issues, housing, social economics, family disruption and abuse, end-of-life considerations, and political and policy challenges. With abundant case studies and discussions about successes and failures in homeless geriatric health care, the book provides a framework for the joint efforts of social worker, nurse, mental health professional, physician, and other health care professionals to provide optimal care for older homeless populations. Key Features: Presents the most current resources, evidence, and developments for interdisciplinary care of older homeless populations Written by an interprofessional health care workforce with abundant clinical and academic experience in the field Focuses on implementing, developing, and adopting health care strategies to provide for the care frail homeless elderly Includes case studies and discussions of successes and failures Addresses challenges, barriers, resolutions, and opportunities for homeless geriatric care

Homelessness in America—Kathleen Swenson Miller 2006 Learn how to better address the needs of the homeless The causes of homelessness are complex and varied. Homelessness in America provides an overview of the state of research on the homeless population from an occupation and societal participation perspective. This important resource explores the systems of care in which homeless services are organized, the tailoring of services to meet the needs of diverse types of homeless, the newest trends in services, and crucial funding sources. Research is comprehensively examined from an occupation-based perspective, including studies on specific issues pertaining to various homeless populations. This in-depth discussion provides a vital understanding of homelessness using a client-centered and strengths-based approach in occupational therapy. Much of the research and writings of occupational therapists who work with homeless populations has been scattered
Homelessness Prevention and Intervention in Social Work - Heather Larkin 2019-06-26 This important text provides a comprehensive survey of homelessness in America: its scope and causes, its diverse populations, and the array of responses at the individual, community, and systems levels. Expert contributors explore the links between trauma and homelessness, the cycle of homelessness and health/mental health problems, and barriers preventing people from accessing services. Case studies of effective programs and practices focus on science-based interventions, broad understanding of client needs, and close coordination between systems and agencies. Finally, specialized chapters discuss issues and experiences common to homeless youth and young adults, including housing instability on college campuses and empowerment-based strategies for engaging youth voice in programming. Included in the coverage: Homelessness and health disparities: a health equity lens Affordable housing and housing policy responses to homelessness Street talk: homeless discourses and the politics of service provision Multisectoral collaborations to address homelessness Trauma-informed care in homelessness service settings: challenges and opportunities Incorporating youth voice into services for young people experiencing homelessness Homelessness Prevention and Intervention in Social Work fills a critical gap in the social work curriculum as a main or a supplementary text. It also makes an accessible resource for clinicians and community practitioners seeking current knowledge on the topic, practical approaches to working with clients experiencing homelessness, and useful information for effective program and policy design.

The Rural Homeless - Larry T. Patton 1988

Rewriting Homeless Identity - Jeremy S. Godfrey 2015-12-24 Rewriting Homeless Identity focuses on the identities of untrained homeless writers who negotiated their experiences on the streets through individual writing personas at writing workshops. This book highlights ethnographic research into the writing samples to explore identity and growth through the writing process.

The Homeless - The New York Times Editorial Staff 2019-12-15 Homelessness is a visible problem in big cities, and a largely invisible one in small towns and rural areas. This issue involves serious consequences for those living on the streets, in tent cities, or in their cars. Homeless people live with unsanitary conditions, crimes inflicted against them, and an array of mental, emotional, and physical health problems. Homelessness affects young and old, single people and entire families, veterans, and LGBTQ+ individuals, among others. This incisive collection of articles examines the myriad issues faced by communities, activists, governments, and private charities when addressing this vulnerable population. Media literacy questions and terms are included to help readers further analyze news coverage and reporting styles.

FEED HOMELESS PEOPLE NOW: Sharing, Not Charity - Kirsten Anderberg 2012-01-07 This book takes a look at the concept of just feeding homeless people on the streets in your own city with good food you make. The author talks about the reasons she feeds homeless people in her town, as well as the reasons she hesitated to do so. She also talks about where to find people to feed, what to feed folks on streets, etc. Included in the book are some other essays by the author including an article about her interviews with homeless folks in a "tent city" in Seattle, an essay about including poor people in community events and other articles about poverty, homelessness and hunger.

School-Based Practice with Children and Youth Experiencing Homelessness - James Canfield 2015 Schools are facing increasing numbers of homeless students and school social workers and other related professionals are often at the front line of addressing the negative impact homelessness brings to individual students and the school overall. School social workers and other school-based personnel must contend with a myriad of policies and other factors related to homelessness to help students obtain an education. School-based Practice with Children and Youth Experiencing Homelessness is one of the first books to focus on this topic in the context of our social work practice. This book guides practitioners through the conceptualization of homelessness, how experiencing homelessness impacts the children we serve, the policies that govern us, and finally a practice perspective. Written with practitioners in mind, School-based Practice with Children and Youth Experiencing Homelessness is loaded with case studies and practice examples and is an accessible handbook to addressing homelessness in our schools.

Homeless Women and Homeless Women With Mental Illnesses - DIANE Publishing Company 1995-11 Over 100 annotated entries including books and journal articles.

Reading the Homeless - Eungjun Min 1999 Examines the various ways—both verbal and visual—in which the media have portrayed the homeless over the last 20 years.

Reckoning with Homelessness - Kim Hopper 2014-07-15 "It must be some kind of experiment or something, to see how long people can live without food, without shelter, without security."—homeless woman, Grand Central Station, winter "Homelessness is a routine fact of life on the margins. Materially, it emerges out of a tangled but unmysterious mix of factors: scarce housing, poorly planned and badly implemented policies of relocation and support, dismal prospects of work, exhausted or alienated kin.... Any outreach worker could tell you that list would be incomplete without one more: how misery can come to prefer its own company."—from the book Kim Hopper has dedicated his career to trying to correct the problem of homelessness in the United States. In his powerful book, he draws upon his dual strengths as anthropologist and advocate to provide a deeper understanding of the roots of homelessness. He also investigates the complex attitudes brought to bear on the issue since his pioneering fieldwork with Ellen Baxter twenty years ago helped put homelessness on the public agenda. Beginning with his own introduction to the problem in New York, Hopper uses ethnography, literature, history, and activism to place homelessness into historical context and to trace the process by which homelessness came to be recognized as an issue. He tells the largely neglected story of homelessness among African Americans and vividly portrays various sites of public homelessness, such as airports. His accounts of life on the streets make for powerful reading.

Rachel and Her Children - Jonathan Kozol 2011-06-01 "Extraordinarily affecting....A very important book....To read and remember the stories in this book, to take them to heart, to be called as a witness." THE BOSTON GLOBE There is no safety net for the millions of heartbroken refugees from the American Dream, scattered helplessly in any city you can name. RACHEL AND HER CHILDREN is an unforgettable record for humanity, of the desperate voices of the men, women, and especially children, and their hourly struggle for survival, homeless in America.

Helping America's Homeless—Martha R. Burt 2001 Longtime Urban Institute researcher Martha Burt and her co-authors provide an in-depth analysis of homelessness, exploring issues such as how many homeless people there are in America, where they are, why they became homeless, how long their homelessness lasts, the different ways programs in different communities are helping the homeless, and how policymakers have approached the problem. Finally, they consider what societies may be willing to do to reduce the probability that their members will become homeless. c. Book News Inc.

Pretreatment Guide for Homeless Outreach & Housing First—Jay S. Levy 2012-09-30 This book provides social workers, outreach clinicians, case managers, and concerned community members with a pretreatment guide for assisting homeless couples, youth, and single adults. The inter-relationship between Homeless Outreach and Housing First is examined in detail to inform program development and hands on practice. "Pretreatment Guide for Homeless Outreach & Housing First" shares five detailed case studies from the field to elucidate effective ways of helping and to demonstrate how the most vulnerable among us can overcome trauma and homelessness. Readers will:* Expand their assessment skills and discover new interventions for helping people who have experienced long-term or chronic homelessness.* Understand how to be able to integrate the stages of common language construction with their own practice.* Learn about the positive measurable impact of a Housing First approach and its moral, fiscal, and quality of life implications.* Understand how to better integrate program policy and supervision with Homeless Outreach & Housing First initiatives.* Learn how to utilize a Pretreatment Approach with couples, youth, and unaccompanied adults experiencing untreated major mental illness and addiction.* Jay S. Levy's book is essential reading to both people new to the movement to end homelessness and those who have been in the trenches for many years. Learn how to do effective outreach with the chronic homeless population, and the ins and outs of the Housing First model. The personal stories and the success cases will give inspiration to work even harder to help both individuals and for ending homelessness in your community.* Michael Stoops, Director of Community Organizing National Coalition for the Homeless, Washington, DC Learn more at www.JaySLevy.com Another empowering book from Loving Healing Press www.LovingHealing.com

Homelessness—Arthur Gillard 2012-03-05 Editor Arthur Gillard helps readers to explore issues related to homelessness. Through articles from a variety of sources, this book explores topics like tent cities as a temporary answer to long-term housing problems, and the impact of “housing first” approaches. Readers will evaluate whether or not giving money to panhandlers helps the chronically homeless, and the long-term effect of homelessness on families. They will learn intelligent ways to speak out about homelessness. Essay sources include the National Coalition for the Homeless, Colorado Springs Gazette, Anna Nuessbaum Koating, and Hubert G. Locke.

Homelessness in America [3 volumes]—Robert Hartmann McNamara 2008-09-30 Homelessness is one of the most compelling social problems in the United States. Dating from the early years in Colonial America to the current problems relating to homeless women and children, homelessness has been the topic of discussion of scholars, social activists, and policy makers. Many types of social problems are linked to homelessness, including poverty, substance abuse, foster care, and crime. As a result, unpacking the issues has proven to be a challenge for anyone interested in this topic. Homelessness in America offers an assessment of what is known about each segment of the homeless population, which contrary to conventional belief, is comprised of a wide variety of faces from many backgrounds. It explains linkages to other social issues and provides a balanced overview of homelessness in light of the varying perspectives on the topic. While much of what has been written about homelessness has come from the academic perspective, agendas often interfere with an accurate understanding of the problem. Clearly, there is a place for other types of perspectives, including those that view homelessness through political and legal lenses. These groups have provided us with a robust body of information within which we may better understand the questions relating to homelessness. McNamara has brought together the voices of these groups in order to reveal the numerous political, economic, and social constraints that beset current attempts to solve homelessness. In addition, the commonly held belief that homelessness is a result of laziness or a poor work ethic is turned on its head to reveal that homelessness is truly a multifaceted and complex issue.

Federal Homeless Assistance Programs—Sheryl Carter 2015-06-01

Housing the Homeless—Jon Erickson 2017-07-12 Homelessness has become a lasting issue of vital social concern. As the number of the homeless has grown, the complexity of the issue has become increasingly clear to researchers and private and public service providers. The plight of the homeless raises many ethical, anthropological, political, sociological, and public health questions. The most serious and perplexing of these questions is what steps private, charitable, and public organizations can take to alleviate and eventually solve the problem. The concept of homelessness is difficult to define and measure. Generally, persons are thought to be homeless if they have no permanent residence and seek security, rest, and protection from the elements. The homeless typically live in areas that are not designed to be shelters (e.g., parks, bus terminals, under bridges, in cars), occupy structures without permission (e.g., squatters), or are provided emergency shelter by a public or private agency. Some definitions of homelessness include persons living on a short-term basis in single-room-occupancy hotels or motels, or temporarily residing in social or health-service facilities without a permanent address. Housing the Homeless is a collection of case studies that bring together a variety of perspectives to help develop a clear understanding of the homelessness problem. The editors include information on the background and politics of the problem and descriptions of the current homeless population. The book concludes with a resource section, which highlights governmental policies and programs established to deal with the problem of homelessness.

Segregation, Inequality, and Urban Development—Sara Dehkordi 2020-07-31 In present-day South Africa, urban development agendas have scripted the city as a place where development happens. While cities are places where the poor live, the city is seen as the battle ground to assert who is the owner of urban space. In this book, Sara Dehkordi shows that these processes are being implemented as part of a discourse practice and that the criminalization of lower-class members are part of that practice, not as random policing techniques of individual security forces, but as a technology of power that attends to the body, zooms in on it, screens it, and interrogates it.

Coping with Homelessness—Marcia Amidon Lusted 2017-12-15 In today's world of economic uncertainty, homelessness is a growing problem for families everywhere. Homelessness can happen with little warning, and when it does occur, it is vital to know what actions to take immediately, and what resources are available. Readers will find helpful strategies to follow if and when they should suddenly find themselves homeless, addressing issues that include how to find shelter, food, and medical care and how to stay in school or find a job. It also includes features such as a section of 10 Great Questions to ask experts and a listing of organizations that can provide assistance.

In the Midst of Plenty—Marybeth Shinn 2019-08-01 To end homelessness This book explains how to end the U.S. homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy-makers can apply now In the Midst of Plenty shifts our understanding of the phenomenon of homelessness away from issues of individual disability and embeds it in larger contexts of poverty, income inequality, housing affordability, and social exclusion. Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no
alternative to sleeping on the street or in emergency shelters. The book is organized around four questions: Who becomes homeless? Why do people become homeless? How do we end homelessness? How do we prevent it? Based on a comprehensive look at relevant research, the authors show that we know how to end homelessness—if we devote the necessary resources to doing so. In the Midst of Plenty: Homelessness and What to Do About It is an excellent resource for professionals and decision-makers in the homeless services system, as well as for anyone who is interested in helping to end homelessness. It also can be used as a text in undergraduate or masters courses in public policy, sociology, psychology, social work, urban studies, or housing policy. "The knowledgeable and thoughtful authors of this book—two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions—have done a great service by taking us on a journey through the history of homelessness, how our responses have changed, and how we can end it." Nan Roman, President and CEO National Alliance to End Homelessness. "Shinn and Khadduri’s new book is a thorough yet concise examination of what we know about the nature and causes of homelessness, and the crucial lessons learned. This critically important work provides a roadmap to restoring basic housing and income security as viable policy options, in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness."

Dennis Culhane, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania "Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy. Their policy recommendations on ending homelessness are culled from the best about what we know works." Barbara Poppe, Executive Director US Interagency Council on Homeless, 2009-2014.

Homeless Service Programs. A Study of its Effectiveness in Alleviating Homelessness in the City of Springfield, MA-Luis Santiago-Gaetan 2016-10-11 This research project studied the broad subject of homelessness from a distinctive perspective. Homeless individuals have different needs, and different human services organizations offer many homeless service programs to individuals, from temporary shelter to transitional housing, and training and health programs among others. Nonetheless, the most important service needed for homeless individuals should be the one that leads to permanent housing solutions. However, findings from this research study suggested that not all homeless service programs are as effective in alleviating homelessness in the community, as most have been led to believe in the past. Therefore, the required question had to be, how effective are homeless service programs in alleviating homelessness in the City of Springfield MA? Finding an answer to that question was the primary reason for this research. This research study sought to know more about the effectiveness of two distinctive service programs, which although similar in services offered, both operate with completely different funding and visions on how to solve the homelessness problem in the community. Perhaps, this study may someday contribute to further research efforts on the subject, help develop or create more effective programs, or even help alleviate the growing homeless problem in the community. Nevertheless, as for any other research project, there are limitations to this study. This research is limited to the study of two different homeless service programs in the City of Springfield, Massachusetts. Moreover, program effectiveness was solely measured on the programs abilities to provide permanent housing options to its clients in direct relation to their resources for the purpose to alleviate the problem in the community. A brief roadmap for this master’s thesis research project starts with the introduction to the subject, followed by the review of the existing relevant literature. The community assessment begins with the community description and the research and gathering of data from stakeholders directly and indirectly affected by the problem. Lastly, the action plan, which details a plan of action based on the conclusion of the findings of all the information and data gathered.
